INDEPENDENT ACCOUNTANT'S REVIEW REPORT

Governing Board
Tuolumne Park and Recreation District
Tuolumne, California

We have reviewed the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Tuolumne Park and Recreation District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, except for the issues noted in the Known Departure From Accounting Principles Generally Accepted in the United States of America paragraph and the Other Matters paragraph, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Known Departure From Accounting Principles Generally Accepted in the United States of America

As explained in Note 1 to the financial statements, management has not recorded financial data related to a component unit. Accounting principles generally accepted in the United States of America require that component unit assets, liabilities, and financial activity be included in the financial statements of the primary government. The amount by which this departure would affect the liabilities and expenditures of the governmental activities has not been determined.

Other Matters

Because of the inadequacy of accounting records pertaining to fixed assets and accumulated depreciation, we were unable to review the amounts at which these items are recorded in the accompanying Statement of Net Position as of June 30, 2016, or the amount of depreciation expense recorded in the Statement of Activities for the year then ended. Our review of current year fixed asset transactions was not impaired.
